

ARMS EMBARGO NOW

WHAT IS ELBIT

Elbit Systems is Israel's largest weapons manufacturer and the backbone of its military industrial complex. It produces the vast majority of the drones, tanks, and bullets that the IOF has been using to enact its genocide in Gaza. **No company is profiting more from this genocide than Elbit.**

ELBIT STATS

- **Israel's largest arms and surveillance tech company** provides
- 80% of the weapons and equipment for their land forces and 85% of the combat drones used by the air force.
- **"Battle tested"** – Captive Palestinians, Lebanese, and Syrian people are subjected to barbaric experiments aimed to serve imperialist powers in an economy of genocide.

CANADA'S TIES TO ELBIT

After 1,000+ days of the Israeli genocide in Gaza, **Canadian suppliers** continue to send parts to Elbit, and the **Canadian government** continues to purchase arms *from* Elbit.

- Elbit subsidiaries are lobbying our politicians and Elbit representatives are visiting our cities to hawk their weapons.

The Government of Canada has spent millions on contracts with Elbit

- over decades, including a **\$36 million contract** for the Hermes 900 Starliner drone to surveil the Arctic.

- We've tracked down **dozens of companies across the country** that are regularly shipping parts directly to Elbit's Israeli factories.

ELBIT OUT OF CANADA

Map of complicit companies supplying and partnering with Elbit (armsembargonow.ca/elbitout)

WHAT IS ELBIT OUT OF CANADA

As the Canadian government refuses to uphold its own laws and end Canada's complicity in the Israeli genocide in Gaza, the responsibility falls to all of us. Elbit has no place in our communities, our institutions, or our public funds.

Therefore, we are inviting grassroots organizations, riding groups, and individuals to adopt a local Elbit supplier and take action to pressure them to stop all business with Elbit Systems.

OUR GOALS

- 1 Stop all business with Elbit Systems through grassroots' pressure.
- 2 Build upward pressure to force the Canadian government to sanction Elbit.
- 3 Mount momentum for a complete two-way arms embargo against Israel.

TAKE ACTION

Our task is to make suppliers of Elbit feel the pressure that their connection to Elbit (and, through Elbit, to Israel's genocide) so undeniable, so inconvenient, so politically toxic, that they are forced to stop sending parts to Elbit. We will stop the flow of Canadian components to Israel's largest arms manufacturer—one factory at a time.

- Join your local solidarity group: attend events, volunteer your time, spread the word. Our collective action mounts pressure.
- Demand that the Government of Canada sanction Elbit at link below.
- Stay informed by following one of our accounts below.
